Professional Summary

Full Stack Developer with hands-on experience in MERN stack, building scalable web apps and RESTful APIs. Strong backend development experience with Node.js and Express.js, including authentication, middleware, and database design. Solid problem-solving with 300+ DSA problems solved.

Education

B.Tech in Computer Science and Engineering	(2023 – 2027)
JD College of Engineering and Management	CGPA: 8.39
Senior Secondary (12th)	2022
Sardar G.G. Junior College	82%
Secondary (10th)	2020
Sardar G.G. High School	89.4%

Technical Skills

Languages: JavaScript, Python, C++

Frontend: React.js, Context API, API Integration

Backend: Node.js, Express.js, REST APIs, JWT Auth, Middleware, Routing, Error Handling, CORS

Databases: MongoDB (Atlas), MySQL, Schema Design

Tools: GitHub, Postman, Render, Vercel

Core: DSA, API Design, Authentication & Authorization, SDLC

Projects

Airbnb Clone (MERN Stack)

Deployed

- Architected a full-stack web app with authentication, listings, and booking workflows for 10+ users using MERN.
- Engineered 10+ REST APIs with JWT auth, middleware, and routing, optimized MongoDB schema, reducing API response latency by 30%.

AI Quiz & Interview Assistant

Deployed

- Built an AI-driven platform for quiz generation and resume-based interviews with analysis for 25+ users.
- Integrated 5+ APIs, leaderboard, and backend services with testing using Postman, reduced API failure rate.

Zoom Call Application

Deployed

- Engineered a peer-to-peer video calling app using WebRTC supporting real-time communication for 20+ users.
- Implemented secure signaling and optimized connection handling, measurable improvement.

GitHub Repository Analyzer

Deployed

- Developed an AI tool to analyze GitHub repositories using REST APIs, generating insights for 50+ users.
- Processed aggregated repository metrics (stars, commits, contributors) with structured backend logic during hackathon.

Experience

Full Stack Intern – AICTE (Eduskill)

- Designed backend services in Python and built 5+ REST APIs and integrated database operations for structured data handling.
- Implemented API workflows with routing, authentication, and error handling, improving request processing efficiency.

Achievements & Certifications

- Solved 300+ DSA problems (LeetCode 145+, GFG 180+) across multiple topics.
- Completed 4+ certifications in C++, JavaScript, React (GeeksforGeeks).
- Participated in 3 hackathons with collaborative project development.
